BASEBALL STRIKE AVERTED. What threatened to be a serious clash in organized baseball has been averted, temporarily at least, by Man-ager Ebbetts recognizing the way out of the difficulty involved in the Kraft case and taking it. Such does not serve necessarily as a basis for acin the future, but it discloses how serious affairs may become unless rules when adopted are lived up to:

THE CAILLAUX TRIAL.

Because the life of a woman, who is prominent in the official life of Parls and France, is at stake, the interest of two continents at least is centered in the trial of Mme. Calliaux for the murder of Gaston Calmette, and reditor of a leading Parls newspaper. It is a case, according to the evidence, where the woman had undertaken to overstep the law and prevent the publication of letters which she feared would be printed in a political contest. There was methed in her action and she went armed with a revolver the could say tweet operated by the commission. The fact of the conversation he had had with spirit of justice and the best public to got the contest of justice and the best public on the conversation must be met in a spirit of justice and the best public to justice and the best public of justice and the best public policy.

changed her from a resentful woman to a murderess.

As in all such cases where women are involved wide interest is manifested in the outcome and none of the dramatic incidents which accompany such trials are being omitted.

France's method of dealing out justice in such cases differs from this country, however. There is no such delay as frequently accompanies big cases in this country, with the introduction of immaterial testimony and the arousing of sentiment, and in this respect an excellent opportunity for comparisons of methods is furnished. It now remains for the rebels to make haste in taking over the government under reasonable terms and demonstrate what their capacity is for handling the problems. In this they are naturally going to encounter plenty of trouble, but it is the cause of peace and not conflict which must be champloned by Carranza. BABY IN RASH OVER HEAD AND BODY

Took Out All His Hair, Itched and Burned So Could Not Sleep. Used Cuticura Soap and Ointment. Eruption Healed.

Sherman, Maine.—"When my baby boy was about three weeks old he broke out with a rash all over his head and body which took out all his hair and itched and burned so bad he could not sleep. It came in the form of water blisters and when he would scratch them they would make wet erup-tions which continued to grow worse until they were all over his head and body. His clothes would chafe them so that I would have to keep him bandaged.

"I tried many different kinds of soap and remedies but it continued to grow worse until I obtained a cake of Cuticura Soap and a box of Cuticura Cintment. I washed him with the Cuticura Soap and then I ap-plied the Cuticura Cintment. I could see that it helped him from the very first. The sore places had taken his hair all out but by the time I had used the Cuticura Scap and Ointment three weeks the eruptions were all healed and his skin is as clear and smooth as ever. He now has a fine head of hair and there has never been any sign of the trouble since." (Signed) Mrs. John Collins, Feb. 19, 1914.
